PROFESSIONAL SUMMARY

Freelance full-stack developer building custom websites and web applications for small businesses — from clean business websites to booking systems, inventory tools, and customer-facing web apps. Works primarily with Python, Django, and SQL, backed by coursework from Harvard's CS50 series, MIT Open Learning, and the University of Michigan. Also writes and illustrates an ongoing sci-fi book series, self-published via Amazon KDP.

SERVICES

- Business Websites** — clean, fast, mobile-friendly websites that represent a business online
- Web Applications** — booking systems, dashboards, and custom tools (e.g. scheduling apps, customer portals)
- Database & Backend Systems** — inventory tracking, billing, and structured data systems

TECHNICAL SKILLS

LANGUAGES	Python, SQL, JavaScript, HTML/CSS
FRAMEWORKS	Django, Flask, AJAX
DATABASES	PostgreSQL, MySQL, SQLite, Database Design, DBMS, NoSQL
FOUNDATIONS	Data Structures, Algorithms, Regular Expressions, Cybersecurity basics
OTHER	Microsoft Office & Access, Technical Documentation

PROJECTS

- Breathing Bot**

Live on Render

Full-stack wellness web app for guided breathing/meditation with real-time visual feedback, secure auth, session logging, and CSV data export. Evolved from a CS50P command-line final project into a complete Django web application.

Django · Python · SQLite · Bootstrap · JavaScript
- Turf Booking & Team Management System (TurfHub)**

Full-stack sports facility scheduling platform, originally built as a CS50W final project. Features multi-layer validation (client + server), real-time AJAX availability checks, a custom user moderation system with strike/ban logic, and a staff referee verification dashboard.

Django · Python · JavaScript · AJAX
- Data Systems & Automation Portfolio**

GitHub

Billing generation tools, ETL data-cleaning pipelines, inventory management databases, and sales analytics systems built for freelance clients.

SQL · PostgreSQL · Python

ACADEMIC PROJECTS (CS50 FINAL PROJECTS)

- Law Firm Appointment & Payment System**

CS50x

Web app for managing client appointments, payments, and case data at a law firm, with role-based logins (lawyer/receptionist), a live dashboard of appointment statuses, and payment recording tied to appointment updates.

Flask · Python · SQLite · Bootstrap
- FMCG Distribution Database**

CS50SQL

Relational database design for a distribution business, with triggers that auto-sync inventory on sale/purchase, views for profit-and-loss and customer dues reporting, and indexing for fast joins across products, sales, and suppliers.

SQL · SQLite
- SonicWall SMA VPN Vulnerability Analysis**

CS50 Cybersecurity

Security research presentation analyzing a real-world critical pre-authentication RCE vulnerability (CVE-2025-23006) in SonicWall SMA VPN appliances — covering the attack flow, root cause, impact, and prevention strategies.
- Egg-Catching Game**

CS50 Scratch

2D arcade-style game built in Scratch: a dinosaur sprite catches falling eggs to score points across a limited-lives system.

EXPERIENCE

- Programmer**

Jan 2026 – Present

Freelance / Self-Employed · Remote

Build websites and web applications for freelance clients, along with database systems for inventory, billing, and structured data workflows.
- Author & Illustrator**

Apr 2025 – Present

Self-Employed

Wrote and illustrated *Chipku and the Dust-Blood Gang* (Amazon KDP), first book in a planned 24-book sci-fi series. Managed the full creative pipeline: writing, illustration, and self-publishing.
- PA**

Jun 2023 – Present

Law Firm · Part-time, Remote

Administrative and legal writing support.
- Partner**

Jan 2020 – May 2023

Syrius Distributors

FMCG sales and business administration.
- Business Executive**

Aug 2017 – Aug 2019

Hena's Creation

Administration and import/export operations.
- Data Entry Clerk**

Dec 2011 – Dec 2016

Contract-Based / Freelance

Data entry using Microsoft Office and Access.

EDUCATION & COURSEWORK

- CS50: Introduction to Computer Science** — Harvard Online (Oct-Dec 2024)
- CS50's Introduction to Programming with Python** — Harvard Online (Mar 2025-2026)
- CS50's Introduction to Databases with SQL** — Harvard Online (Mar 2025-Jan 2026)
- CS50's Web Programming with Python and JavaScript** — Harvard Online (Mar 2025-Jun 2026)
- CS50's Introduction to Cybersecurity** — Harvard Online (Mar 2025-2026)
- Introduction to Computer Science and Programming Using Python (6.00.1x)** — MIT Open Learning (Jan-Mar 2026)
- Introduction to Computational Thinking and Data Science (6.00.2x)** — MIT Open Learning (Mar-May 2026)
- Database Design and Basic SQL in PostgreSQL** — University of Michigan (Apr 2026)
- Intermediate PostgreSQL** — University of Michigan (Apr-May 2026)
- Database Architecture and NoSQL at Scale with Deno** — University of Michigan (May 2026)
- 10th Grade (Secondary Education)** — North Point Senior Secondary Boarding School (2011, CGPA: 6.4)
